PROFILE

As an MCA graduate with a keen interest in full-stack web development, I have cultivated a solid skill set in HTML, CSS, and JavaScript. My expertise extends to frameworks such as React, Node.js, and MongoDB, and I am also proficient in C++. I excel at creating user-centric websites that are both dynamic and responsive. Alongside my technical skills, I possess strong soft skills including effective communication, team leadership, and collaborative work. These attributes enable me to work seamlessly with teams and drive projects to successful completion

PROFESSIONAL EXPERIENCE

Software Developer

MoveTech Consultancy

02/2025 – present
Melbourne, Australia

Responsibilities:

- Working on both frontend and backend with a focus on performance and clean architecture.
- Leading full-stack feature development and system design.
- Conducting technical research and contributing to system improvements.
- Collaborating with product managers and engineers to ship high-quality features.
- Practicing agile methodologies including sprint planning and CI/CD.

Skills:

MERN Stack · React.js · Node.js · API Development · PostgreSQL · Postman · CSS · Responsive Design · MariaDB

Web Developer Intern

Unified Mentor

08/2024 – 10/2024

Responsibilities:

- Contributed to frontend development using React and modern UI libraries.
- Collaborated with teams to develop responsive, accessible, and high-performance applications.
- Built landing pages and integrated APIs in live production websites.

Skills:

JavaScript · HTML5 · CSS · React.js · Next.js · Vue.js · Landing Page Optimization

Freelancer & Self-Learner (Part-Time)

06/2024 – present

- Delivered freelance web projects for small businesses using React and Node.js.
- Designed responsive UIs, built REST APIs, and deployed apps using Netlify and Vercel.
- Deepened skills in authentication, performance optimization, and state management.
- Completed hands-on projects like portfolio websites, mini e-commerce, and dashboards.
- Contributed to open-source and built a consistent GitHub commit streak.

Technologies & Tools:

React.js · Express.js · MongoDB · Tailwind CSS · JWT · GitHub · Netlify · Vercel · UI/UX Best Practices

SKILLS

FrontEnd

JavaScript, HTML5, CSS

BackEnd

PHP

Frameworks

React.js, React Native, Node.js, MongoDB, Express

platforms

GitHub, VsCode, Vercel,

PROJECTS

CareCrew

CareCrew is a comprehensive platform designed to bridge the gap between pet owners and service providers. It allows users to easily connect with professionals offering a variety of pet services, including:

- Pet grooming
- Daycare services for pets
- Training and behavioral support
- And more tailored pet care services

Built using the MERN stack (MongoDB, Express.js, React, Node.js), CareCrew ensures a robust and scalable platform for both pet owners and service providers.

Personal Portfolio

Developed using React.js

- Designed and implemented a dynamic personal portfolio to showcase projects, skills, and experience.
- Utilized React.js to build a responsive and interactive user interface, enhancing the user experience with smooth transitions and efficient data management.
- Incorporated modern web technologies such as HTML5, CSS3, and JavaScript to ensure cross-browser compatibility and optimal performance.
- Implemented reusable components and managed state with React hooks, resulting in a scalable and maintainable codebase.
- Integrated transitions to improve visual appeal and engagement.

COURSES

training in C++ Programming

06/2023 – 07/2023
